

Count on a great pool experience every time.

Max-Flo II™ is held to the same excellent standard as the original. New and improved features, such as a larger leafholding capacity strainer basket and high-performance motor, make durability even more economical. It's the perfect pump for first-time pool owners and makes a great replacement pump, too.

II is better than I

Max-Flo II is engineered to be even more dependable and economical. A heavy-duty, high-performance motor and components made of molded, corrosion-proof reinforced thermoplastic can take whatever your pool environment dishes out.

Pump Features & Benefits

- Tri-lock cam and ramp strainer cover are designed to seal with less than a quarter turn
- Clear strainer lid lets you see when the basket needs cleaning
- Pressure testable to 50 psi MAXIMUM
- Large leaf-holding capacity strainer basket extends time between cleanings
- Heavy-duty, high-performance motor is designed for environments up to 122°F
- Elevated base ensures better ventilation for cooler running and protection from flooding
- All components are molded of corrosion-proof, reinforced engineered thermoplastic for extra durability and long life
- Service-ease design provides easy access to all internal components by removing only 4 bolts
